

BECOME A VOLUNTEER

Volunteers make a huge contribution to work at the Acorn Childcare Center and are warmly invited to share in the task of caring for children here!

In order to provide stability for children at the Center we ask those working directly with children to make a commitment of at least one month. Direct work with children is richly rewarding, but can also be rather exhausting, and we generally encourage these volunteers to set aside part of their time each day to work on preparing resources, carrying out art projects, doing repair work, or helping with administrative tasks depending on the volunteer's particular interests.

There is a wide variety of work to be done at the Center. Volunteers with less time available, with more limited Spanish, or with particular skills can offer very valuable support by preparing play resources, developing a garden area, repairing broken toys, making children's costumes, decorating the Center's walls, translating documents, promoting the Center locally, fundraising, or carrying out a range of other creative projects for the benefit of the children.

Volunteers bring fresh ideas, new perspectives, a wealth of different experiences, a variety of skills and contact with various parts of the world. If you would like to apply to volunteer, please contact the Center Director at info@centrobellota.org
